NASA Financial Management Manual

FMM 9280 MISCELLANEOUS ACCOUNTING

PART I ADVANCE FINANCING

9280-1 PURPOSE

- a. This chapter describes NASA's use of the Department of Health and Human Services' Payment Management System (DHHS/PMS) - a letter of credit system of providing advance payments of Federal funds to state and local governments, educational institutions, and other public or private organizations, hereafter referred to as "recipient organizations".
- b. These instructions implement Department of the Treasury Circular No. 1075, as revised, and Treasury Financial Manual, Volume I, Part 6, Chapter 2000, as revised, which are intended to improve the timing of cash advances so that cash withdrawals occur only when essential to meet the actual disbursement needs of recipient organizations. These instructions also implement OMB Circular A-110, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals and other Non-Profit Organizations, the purpose of which is to achieve uniformity in recipients' financial reporting to Federal Agencies.

9280-2 GENERAL REQUIREMENTS

a. AUTHORITY FOR ADVANCE PAYMENTS

- (1) **Grants.** Advance payments to recipient organizations are an integral feature of NASA grants made pursuant to 31 USC 6304. Advance payments for grants may be made without a Determination and Findings (D&F) document.
- (2) **Contracts.** The statutory authorities for advance payments are 10 USC 2307, 42 USC 2473(c)(5), and Public Law 85-804 as implemented by Executive Order 10789. The Federal Acquisition Regulation (FAR), Subpart 32.4, establishes policy for advance payments on contracts. Subpart 32.4 of the NASA FAR Supplement (NFS) establishes NASA policy and requirements in this regard. See NFS 32.402 for approval authorities for advance payments on contracts.

- b. **SCOPE.** These procedures apply to all NASA programs requiring advance payments.
- c. **ADVANCE PAYMENT METHOD.** The letter of credit method of financing shall be used when recipient organizations are awarded grants or contracts with advance payment provisions.
- d. **REQUIREMENTS FOR ADVANCE PAYMENTS.** Recipients shall meet the following requirements in order to qualify for advance payments:

NASA Financial Management Manual

- (1) The recipient organization has demonstrated a willingness and ability to maintain procedures that will minimize time elapsing between receipt of an advance and disbursement of funds.
 - (2) The recipient's financial management system provides for:
 - (a) Accurate, current, and complete disclosure of the financial results of each federally sponsored project or program in accordance with financial reporting requirements.
 - (b) Effective control over and accountability for all funds, property and other assets. Recipients shall adequately safeguard all such assets and assure they are used solely for authorized purposes.
 - (c) Written procedures to minimize time elapsing between receipt of an advance and disbursement of funds.
 - (d) Written procedures for determining reasonableness, allocability, and allowability of costs in accordance with the provisions of the applicable Federal cost principles and the terms of the contract, grant, or other agreement.
 - (e) Recipients' financial management systems shall also adhere to:
 - 1 **Grants.** Standards for financial management systems as specified in OMB Circular A-110 and the Grant and Cooperative Agreement Handbook, NPG 5800.1.
 - 2 **Contracts.** Generally accepted accounting principles and standards and standards for financial management and reporting as specified in relevant contract clauses.
 - (3) The recipient organization will be required to finance its operations with its own working capital when it has demonstrated that it is unwilling or unable to meet cash management requirements that will minimize cash balances or when its financial management system does not meet the standards for fund control, accountability, and financial reporting.
- e. **FINANCIAL REPORTING.** All recipients shall submit an electronic Federal Cash Transactions Report (SF 272) within 15 working days following the end of each Federal fiscal quarter. Additionally, all recipients will submit a final SF 272 within 90 calendar days after the expiration date of each grant or contract. (See FMM Appendix 9280-2A).
- f. **CASH MANAGEMENT.** Recipient organizations are required to request the minimum amount of funds needed and schedule cash advances to coincide with actual, immediate cash requirements. Centers shall monitor recipients' drawdowns to ensure that minimal balances are being maintained.
- (1) Recipients are required to maintain advances of Federal funds in interest bearing accounts, unless:
 - (a) they receive less than \$120,000 in Federal awards per year,

NASA Financial Management Manual

- (b) the best reasonably available interest bearing account would not be expected to earn in excess of \$250 per year on Federal cash balances, and
- (c) the depository would require an average or minimum balance so high that it would not be feasible within the expected Federal and non-Federal cash resources.

Interest earned on advances in interest bearing accounts in excess of \$250 per year shall be remitted annually to the Department of Health and Human Services, Payment Management System, Rockville, MD 20852. The recipient may retain interest amounts up to \$250 per year for administrative expenses.

- (2) Recipients shall forward excess Federal funds erroneously drawn to the Department of Health and Human Services. The only exceptions are when the funds involved:
 - (a) will be disbursed by the recipient organization within seven (7) calendar days; or
 - (b) are less than \$10,000 and will be disbursed within 30 calendar days.

DHHS shall report any interest collected on excess Federal funds to the Center and to the Department of the Treasury.

- g. **INSTRUCTIONS FOR RECIPIENTS.** Detailed instructions for recipient organizations receiving advance payments are contained in FMM Appendix 9280-2A, Instructions To Recipient Organizations For Acquiring Advance Payments By Letter Of Credit. Upon award of the grant or contract for advance payments, Centers shall provide these instructions along with the web address where recipients may obtain copies of the Federal Cash Transactions Report (SF 272) (<http://www.whitehouse.gov/omb/grants/sf272.pdf>).

9280-3 *LETTER OF CREDIT - DEPARTMENT OF HEALTH AND HUMAN SERVICES' PAYMENT MANAGEMENT SYSTEM (DHHS/PMS)*

- a. **PAYMENT MANAGEMENT SYSTEM (PMS).** NASA uses the DHHS/PMS method of payment in administering letters of credit. Recipient requests for funds are submitted through the PMS system. Cash requests are processed directly from the recipient's personal computer into PMS where, after successful negotiation of the System's edits, the transaction is written to a tape and forwarded to the Richmond Federal Reserve where it is electronically transmitted to the recipient organization's financial institution the next business day.

NASA Financial Management Manual

The Department of Health and Human Services will contact recipient organizations and provide instructions on requesting funds through the Payment Management System. If a recipient organization reports that it has not been contacted by DHHS, a determination shall be made as to whether or not the recipient should have been contacted, i.e., whether or not the DHHS has had enough time to process the recipient organization's forms (see Appendix 9280-2B, paragraph f. (1).) If the recipient's concern is valid, Unit 2 of the Recipient Financing and Cash Management Branch (DHHS), should be contacted in order to inquire about the status of the recipient's account.

- b. **PAYMENT MANAGEMENT SYSTEM COORDINATOR.** The PMS Coordinator, located in NASA Headquarters, Code BFB, is the point of contact for resolution of operational problems. The PMS Coordinator is responsible for:
 - (1) Ensuring that each Center is properly charged for its recipients' drawdowns. Centers are billed by Code BFB through the Intragovernmental Payment and Collection System (IPAC) each month.
 - (2) Reconciling Centers' and Department of Health and Human Services' data.
 - (3) Distributing PMS reports.
 - (4) Assisting Centers with recipient registration.
 - (5) Acquiring and maintaining registered initials.
 - (6) Coordinating activity between Centers and DHHS.
- c. **CONSOLIDATION OF FUNDING TO THE SAME RECIPIENT ORGANIZATION UNDER ONE LETTER OF CREDIT.** All advance financing to the same recipient organization shall be combined into one letter of credit by the Center. The letter of credit shall include all advance payment grants and contracts awarded to a recipient.
- d. **ASSIGNING LETTER OF CREDIT NUMBERS.** Letter of credit numbers are 10-digit identifiers composed of three sections: (1) four zeros; (2) Accounting Installation Number (AIN) per FMM 9121-51; and (3) 4-digit sequential letter of credit number. Letter of credit numbers should not be duplicated.
- e. **LETTER OF ADVICE.** Recipients are notified of award authorization actions by a letter of advice. The letter of advice should contain, at a minimum, the following information:
 - (1) The recipient organization's name and address.
 - (2) The recipient organization's Entity Identification Number and the NASA-assigned letter of credit number.
 - (3) The amount and effective date of the initial or amended authorization.
 - (4) For initial authorizations, the recipient shall be informed that payments will be made under DHHS/PMS.

NASA Financial Management Manual

(5) Certification that the authorized amount will be available as of the effective date of the initial authorization or amendment.

(6) A detailed listing of the grants or contracts included in the authorization actions.

A cognizant authorized certifying officer shall sign the letter.

- f. **SERVICE CHARGES.** NASA Headquarters compensates DHHS Division of Federal Assistance Financing on a monthly basis via the Treasury's Intragovernmental Payment and Collection System (IPAC), for maintaining NASA recipients on PMS. Charges are based on the number of active NASA award authorizations.

Each Center shall develop policies and procedures that ensure the most efficient use of these systems in order to minimize agency expenditures.

9280-4 ADMINISTRATIVE REVIEWS AND REPORTS

- a. **ADMINISTRATIVE REVIEWS.** Using the inquiry capability of the PMS for letter of credit recipients and the quarterly SF 272's submitted by all recipient organizations, Centers will monitor recipients' drawdown practices. If a recipient withdraws funds in excess of current requirements or fails to submit required reports on a timely basis, subsequent requests for funds may be suspended (see FMM 9280-9) until the situation is remedied.

If the recipient organization continues to withdraw funds in excess of current needs or fails to submit reports on a timely basis, the advance financing arrangement may be terminated (see FMM 9280-9) and the recipient organization shall then be required to finance its operations with its own working capital.

Note that FMM 9280-9 lists specific circumstances under which the Financial Management Office shall initiate suspension or termination of advance payments.

- b. **FEDERAL CASH TRANSACTIONS REPORTS.** Advance payment recipients are required to submit a Federal Cash Transactions Report (SF 272) electronically to the Department of Health and Human Services' (DHHS) Payment Management System (PMS) within 15 working days following the end of each Federal Fiscal Quarter. NASA personnel should reconcile drawdowns during the quarter and ending undrawn authorization balances.

9280-5 REPORTING LETTER OF CREDIT TRANSACTIONS

- a. **BILLING RECIPIENT DRAWDOWNS.** Centers will be billed monthly through the Intragovernmental Payment and Collection System (IPAC) under Agency Location Code 80-00-0087 (see FMM Appendix 9210-8A) for recipients' drawdowns.
- b. **REPORTING ON THE STATEMENT OF TRANSACTIONS (SF 224).** Centers with letter of credit drawdowns will report such activity on their monthly Statement of Transactions (SF 224) submission.

NASA Financial Management Manual

9280-6 GENERAL LEDGER REQUIREMENTS

- a. **GENERAL LEDGER ACCOUNTS.** To properly account for advance financing and related transactions, Centers will maintain appropriate general ledger accounts. Pro forma entries illustrating the posting of advance payment transactions to the general ledger accounts are shown in FMM 9220.
- b. **SUBSIDIARY ACCOUNTS.** Subsidiary accounts will be established and maintained by Centers in sufficient detail to support the general ledger control accounts.

9280-7 CLOSING LETTERS OF CREDIT

- a. **CLOSING AWARD AUTHORIZATIONS.** A recipient's letter of credit account shall be closed if the Center has no plans for awarding additional grants or contracts to the recipient organization.
- b. **CLOSING RECIPIENT ACCOUNTS.** Centers shall forward a letter to the PMS Coordinator:
 - (1) As notification that the recipient's award authorization has been closed.
 - (2) Requesting closure of the recipient's account.
 - (3) Signed by the cognizant certifying officer.
- c. **REOPENING RECIPIENT ACCOUNTS.** Closed accounts shall be reopened by requesting, in writing, that the PMS Coordinator have the account reopened (the letter should be signed by a certifying officer).

9280-8 FINAL REPORT

- a. **FINAL FEDERAL CASH TRANSACTIONS REPORT.** A final Federal Cash Transactions Report (SF 272) shall be submitted in paper form within 90 calendar days after the expiration date of a grant or contract. The final SF 272 pertains only to the completed grant or contract. The report shall be marked "Final" and shall include total disbursements from inception through completion.
- b. **INITIATING CLOSEOUT PROCEDURES.** Upon receipt of a final grant or contract expenditure report, the DCFO (F) shall request that the appropriate Grant or Contracting Officer initiate closeout procedures.
- c. **OUTSTANDING ADVANCES.** NPG 5800.1 requires that recipients promptly refund any balances of undisbursed cash that NASA has advanced to them that are not authorized to be retained by the recipient for use in other projects. When outstanding advances exist and are to be collected from recipients on completed grants, the amounts should be reclassified as accounts receivable and the collection procedures set forth in FMM 9051-5 should be followed.

NASA Financial Management Manual

9280-9

SUSPENSION OR TERMINATION OF ADVANCE FINANCING

- a. When a recipient organization has demonstrated an unwillingness or inability to comply with cash management, financial management system, or financial reporting requirements, the Financial Management Office may temporarily suspend payment to the recipient organization pending corrective action by the recipient or pending a decision to terminate the advance financing agreement. The Financial Management Office shall promptly notify the Grant Officer of any such action.

When the Letter of Credit includes contracts, the Financial Management Office shall consult with all cognizant Contracting Officers before implementing a suspension or termination of advance financing applicable to contracts.

A decision to terminate the advance financing agreement shall be predicated upon a recipient organization's consistent demonstration of an unwillingness or inability to comply with cash management, financial management system, or financial reporting requirements. Under normal circumstances, the recipient organization should have been suspended two times before advance payment termination proceedings are initiated. If the severity of the violation warrants, the DCFO (F) may begin advance payment termination proceedings immediately by notifying the Grant Officer promptly. Upon termination of the advance financing arrangement, the recipient organization shall finance its operations with its own working capital and the Center shall reimburse the recipient's cost.

The Financial Management Office shall take action to either suspend or terminate a recipient's advance financing arrangement, and shall promptly notify the Grant Officer when:

- (1) A recipient organization receiving advance payments from the DHHS/PMS is unwilling or unable to establish a financial management system that meets the requirements of advance financing as evidenced by an audit report or failure to comply with the requirements of FMM 9280-2c(3). The DCFO (F) may require submission of the recipients' written procedures or take other appropriate measures to validate the recipient's compliance with these system requirements.

Centers may take reasonable steps to assist the recipient organization in establishing or improving their financial management system.

- (2) A recipient organization receiving advance payments from the DHHS/PMS is unwilling or unable to report, on an accurate and timely basis, cash disbursements or cash balances, as required by the Center (see FMM 9280-2d). Advance financing shall be temporarily suspended when two (2) successive quarterly reports are late or when two (2) reports are late in a fiscal year. The DCFO (F) may reinstate the advance financing upon corrective action by the recipient. During the temporary suspension period, the Center shall reimburse the recipient's cost (see paragraph a above).

NASA Financial Management Manual

- (3) A recipient organization receiving letter of credit payments from the DHHS/PMS has demonstrated an unwillingness or inability to establish procedures that will minimize time elapsing between drawdowns and related disbursements (see FMM paragraph 9280-2e).
- b. The responsibilities for initiating suspension or termination of advance payments are assigned as follows:
- (1) The Financial Management Office is responsible for initiating suspension or termination of advance payments to grantees and recipients of cooperative agreements in cases involving financial management issues, and shall notify the Grant Officer promptly of such actions. When the Letter of Credit includes contracts, the Financial Management Office shall consult with all cognizant Contracting Officers before implementing a suspension or termination of advance financing applicable to contracts.
 - (2) The Grant Office is responsible for initiating suspension or termination of advance payments to grantees and recipients of cooperative agreements in all other cases - for instance, when the recipient organization has failed to comply with the non-financial terms and conditions of the grant. In such cases, the Grant Officer shall notify the Financial Management Office and the recipient organization of the Grant Officer determinations to suspend or terminate advance payment, and the Financial Management Office shall take prompt action accordingly.
 - (3) The Contracting Officer is responsible for initiating suspension or termination of advance payments to contractors. In such cases, the Contracting Officer shall notify the Financial Management Office and the contractor, of the Contracting Officer determinations to suspend or terminate advance payment, and the Financial Management Office shall take prompt action accordingly.
- c. **PRELIMINARY REVIEW AND WORKING CAPITAL ADVANCE METHOD.**
- A review shall be made of the grant or contract and the statute under which the grant or contract was negotiated to ensure that termination of advance payments is permitted.
- When the reimbursement method is not feasible, arrangements may be made whereby the operations of the recipient organizations are financed on a working capital advance basis. Under this basis, funds are advanced to the recipient organization to cover its estimated disbursement needs for a given initial period (not to exceed 30 calendar days). Thereafter, payments will be made to the recipient for the amount of its actual cash disbursements. The amount of the initial advance should be computed to ensure that after the initial period, the payments are approximately equal to the average amount of the recipient organization's unreimbursed program payments.

NASA Financial Management Manual

d. NOTIFICATION

(1) As addressed in paragraph (b) above, Suspension, Termination, and Reinstatement of advance payments may be initiated by the Center Financial Management Office or by the responsible Grant Officer or Contracting Officer, depending on the nature of the issue at hand. When the Grant Officer or Contracting Officer is the initiator, they shall notify the Financial Management Office in writing, using the notification documents outlined in (2) (a) through (c) below, and the Financial Management Office shall take prompt action accordingly. When the Financial Management Office is the initiator, they shall notify the Grant Officer or Contracting Officer in writing, also using the notification documents outlined in (2) (a) through (c) below. When the Letter of Credit includes contracts, the Financial Management Office shall consult with all cognizant Contracting Officers before implementing a suspension or termination of advance financing applicable to contracts.

(2) The notification documents are as follows:

- (a) **Suspension.** The initiator of suspension (that is, a Center Financial Management Office or a Grant Officer or Contracting Office, depending on the reason for suspension) shall provide reasonable notice, in writing, to the recipient organization of the determination to temporarily withhold further payments pending corrective action by the recipient or pending a decision to terminate advance financing.
- (b) **Termination.** The initiator of termination (that is, a Center Financial Management Office or a Grant Officer or Contracting Officer, depending on the reason for termination) shall promptly notify the recipient and the cognizant Grant or Contract officer, in writing, of the determination, the reasons for termination, and the effective date.
- (c) **Reinstatement.** The initiator of reinstatement (that is, a Center Financial Management Office or a Grant Officer or Contracting Officer, depending on the reason for the initial suspension or termination) shall promptly notify the recipient, in writing, of the determination that a previously suspended or terminated advance payment arrangement is to be reinstated, including the reasons for the reinstatement and the effective date.

NASA Financial Management Manual

9280-2A INSTRUCTIONS TO RECIPIENT ORGANIZATIONS

INSTRUCTIONS TO RECIPIENT ORGANIZATIONS FOR ACQUIRING ADVANCE PAYMENT BY LETTER OF CREDIT

a. PURPOSE

The purpose of these instructions is to set forth the procedures to be followed by participating recipient organizations for obtaining advance payments from NASA utilizing the Department of Health and Human Services' Payment Management System (PMS), a letter of credit system.

b. AUTHORITY

These instructions are established under the provisions of Treasury Department Circular 1075, Withdrawal of Cash from Treasury for Advances Under Federal Grant and Other Programs, Office of Management and Budget Circular A-110, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals and Other Nonprofit Organizations, and contract provisions for advance payments.

c. GENERAL

The letter of credit method of financing shall be used by NASA for recipient organizations awarded grants or contracts with advance payment provisions when the recipient organization has demonstrated a willingness to maintain procedures that will minimize the time elapsing between the transfer of funds and their disbursement; and the recipient organization's financial management system provides for:

- (1) Accurate, current, and complete disclosure of the financial results of each federally sponsored project or program in accordance with the financial reporting requirements.
- (2) Effective control over and accountability for all funds, property, and other assets. Recipients shall adequately safeguard all such assets and assure they are used solely for authorized purposes.
- (3) Written procedures to minimize the time elapsing between the transfer of funds and the disbursement of funds.
- (4) Written procedures for determining the reasonableness, allocability, and allowability of costs in accordance with the provisions of the applicable Federal cost principles and the terms of the contract, grant, or other agreement.

NASA Financial Management Manual

(5) Recipients' financial management systems shall also adhere to:

- (a) **Grants.** Standards for financial management systems as specified in OMB Circular A-110 and the Grant and Cooperative Agreement Handbook (NPG 5800.1).
- (b) **Contracts.** Generally accepted accounting principles and standards and standards for financial management and reporting as specified in relevant contract clauses.

Reimbursement by electronic funds transfer, rather than advance payments, will be used when the recipient's financial management system does not meet the standards for fund control, accountability, and financial reporting or when the recipient is unwilling or unable to meet cash management requirements.

d. **FINANCIAL REPORTING REQUIREMENTS**

Recipients are required to submit a Federal Cash Transactions Report (SF 272), and, when applicable, a Continuation Sheet (SF 272A) electronically to the DHHS/PMS. The SF 272 report shall be submitted within 15 working days following the end of each Federal fiscal quarter, i.e., December 31, March 31, June 30, and September 30. One Federal Cash Transactions Report shall be submitted for all grants and contracts financed under a letter of credit arrangement with a Center.

A final Federal Cash Transactions Report shall be submitted in paper form within 90 calendar days after the expiration date of a grant or contract. The final SF 272 pertains only to the completed grant or contract and shall include total disbursements from inception through completion. The report shall be marked "Final".

Recipients may obtain copies of the Federal Cash Transactions Report at the internet website: <http://www.whitehouse.gov/omb/grants/sf272.pdf>.

e. **CASH MANAGEMENT REQUIREMENTS**

- (1) **REPORTING INTEREST.** Recipients are required to maintain advances of Federal funds in interest bearing accounts, unless: (1) they receive less than \$120,000 in Federal awards per year, (2) the best reasonably available interest bearing account would not be expected to earn in excess of \$250 per year on Federal cash balances, and (3) the depository would require an average or minimum balance so high that it would not be feasible within the expected Federal non-Federal cash resources. Interest earned on advances in interest bearing accounts in excess of \$250 per year shall be remitted annually to the Department of Health and Human Services, Payment Management System, Rockville, MD 20852. Interest amounts up to \$250 per year may be retained by the recipient for administrative expenses.

The remittance should be made payable to DHHS and should indicate the recipient organization's Entity Identification Number (EIN) and reason, i.e., "Interest earned".

NASA Financial Management Manual

- (2) **ERRONEOUS WITHDRAWAL OF EXCESS FUNDS.** The letter of credit system is designed to make funds available to a recipient organization on the first business day following receipt of a request for funds. Recipient organizations are required to (a) request the minimum amount of funds needed; and (b) schedule such requests so that cash advances coincide with actual, immediate cash requirements.

NASA will monitor letter of credit drawdowns to ensure that the timing and amount of cash advances are as close as administratively feasible to actual disbursements. Should funds be erroneously drawn in excess of actual needs, one of two actions should be taken: (a) if the request itself was made erroneously, the recipient organization should contact its financial institution and request that the payment be returned; or (b) if the payment has already been deposited or the excess drawdown is only part of the total payment, the recipient organization should promptly remit the excess funds to the Department of Health and Human Services, Payment Management System, Rockville, MD 20852.

- (3) The remittance should be made payable to DHHS and should indicate the recipient organization's Entity Identification Number (EIN) and reason, e.g., "Excess funds erroneously drawn". The only exceptions are when the funds involved:

(a) will be disbursed by the recipient organization within seven (7) calendar days;
or

(b) are less than \$10,000 and will be disbursed within 30 calendar days.

DHHS shall report any interest collected on excess Federal funds to the Center and to the Department of the Treasury.

f. **LETTER OF CREDIT PROCEDURES**

- (1) **INITIAL AUTHORIZATION.** A Direct Deposit Sign-up form (SF 1199A) and a Contact Information form (FMM Appendix 9280-2B) must be on file before funds may be advanced. The recipient organization shall forward the original forms as soon as practicable, but no later than four (4) weeks prior to implementation, to the DCFO (F) of the cognizant Center. An official who is known to the Center shall sign the forms. DHHS will accept only forms with original signatures, no facsimile or copies.

Upon receipt of the completed Direct Deposit Sign-up form and the Contact Information form, the Center will forward notification of the authorization amount and effective date, by a letter of advice, to the recipient organization.

Instructions, an account number, and a password will be forwarded to the recipient by the Department of Health and Human Services (see Procedures for Drawing Federal Funds).

- (2) **REPORTING CHANGES IN RECIPIENT ORGANIZATION DATA.** A revised Direct Deposit Sign-up form (SF 1199A) shall be submitted should any of the following occur:

(a) change or termination of the official(s) authorized to sign the forms;

NASA Financial Management Manual

- (b) change in the name or address of the recipient organization; or
- (c) change in the account or financial institution.

A Contact Information form shall be submitted should any of the following occur:

- 1 change or termination of the official(s) authorized to sign the forms;
 - 2 change in the contact names or telephone numbers.
- (3) **AMENDMENTS.** Funding actions result in an increase or decrease in the authorized amount of the letter of credit. Amendments to the authorized amount are issued by the cognizant NASA Financial Management Office. Upon notification that a funding action has been taken, the Financial Management Office will advise the recipient organization of the amount, whether the total authorization has been increased or decreased, and the effective date of the change.
- (4) **PROCEDURES FOR DRAWING FEDERAL FUNDS.** Recipient requests for funds are submitted through the PMS system. Requests for funds are processed from a recipient organization's personal computer.

The Department of Health and Human Services will provide instructions on using a PMS account number and password.

(5) **SUSPENSION AND TERMINATION.**

- (a) The responsibilities for initiating suspension or termination of advance payments are assigned as follows:
 - 1 The Financial Management Office is responsible for initiating suspension or termination of advance payments to grantees and recipients of cooperative agreements in cases involving financial management issues, and shall notify the Grant Officer promptly of such actions. When the Letter of Credit includes contracts, the Financial Management Office shall consult with all cognizant Contracting Officers before implementing a suspension or termination of advance financing applicable to contracts.
 - 2 The Grant Officer is responsible for initiating suspension or termination of advance payments to grantees and recipients of cooperative agreements in all other cases – for instance, when the recipient organization has failed to comply with the non-financial terms and conditions of the grant. In such cases, the Grant Officer shall notify the Financial Management Office and the recipient organization of the Grant Officer determinations to suspend or terminate the advance payment, and the Financial Management Officer shall take prompt action accordingly.
 - 3 The Contracting Officer is responsible for initiating suspension or termination of advance payments to contractors. To initiate suspension or termination of advance payments, the Contracting Officer shall notify the Financial Management Office and the contractor of such Contracting Officer determinations, and the Financial Management Office shall take prompt action accordingly.

NASA Financial Management Manual

- (b) Letter of credit payments may be suspended or terminated if the recipient organization has failed to (1) comply with the terms and conditions of the grant or contract, including all reporting requirements;; (2) comply with financial management system requirements; or (3) comply with financial reporting requirements; (4) comply with cash management requirements; or (5) make progress adequate for performance of the contract. Under suspension, the recipient's costs shall be reimbursed until the condition is remedied. NASA policy is that the NASA Financial Management Office, notifying the Grant Officer, shall take action to either suspend or terminate a recipient's advance financing arrangement when:
- 1 A recipient organization is unwilling or unable to establish a financial management system that meets the requirements of advance financing as evidenced by an audit report or failure to comply with NASA requirements;
 - 2 A recipient organization is unwilling or unable to report, on an accurate and timely basis, cash disbursements or cash balances as required by NASA. Advance financing shall be temporarily suspended when two (2) successive quarterly reports are late or when two (2) reports are late in a fiscal year; or
 - 3 A recipient organization has demonstrated an unwillingness or inability to establish procedures that will minimize time elapsing between drawdowns and related disbursements.
- (c) Furthermore, a letter of credit arrangement may also be terminated for either of the following reasons:
- 1 The business relationship between the Center and the recipient organization is completed or terminated (except when follow-on awards are expected to be authorized); or
 - 2 The cognizant Financial Management Office determines progress is not satisfactory toward achievement of the cash management objective of the letter of credit method of financing.
- (d) Advance financing may be terminated if the recipient fails to correct a condition causing suspension within a reasonable period of time. Upon termination, the recipient organization shall finance its operations with its own working capital and be reimbursed by NASA. The cognizant Center will promptly notify the recipient in writing of the determination, the reasons for termination and the effective date.

PART II CARRIER ACCOUNT PROCEDURES

9280-90 PURPOSE AND SCOPE

This section provides the requirements and procedures relative to the use of interappropriation expenditure authority for the following classifications of NASA carrier accounts.

- a. **GENERAL PURPOSE CARRIER ACCOUNTS.** Used for the procurement of common-use materials and certain items of capital equipment and propellants. Can also be used for center and program support.
- b. **FUNCTIONAL CARRIER ACCOUNT.** Used for processing program support and center support transactions related to the appropriations when the function is known at the time of purchase.
- c. **COMMON-USE CARRIER ACCOUNT.** Used for the procurement of common-use services; and the processing of program support transactions when the function is not known until the distribution is recorded.

9280-91 AUTHORITY

NASA authorization for use of carrier accounts is derived from 31 USC 1534, Adjustments Between Appropriations.

9280-92 LIMITATIONS

The use of carrier accounts is limited to the following:

- a. Fiscal activity (commitments, obligations, cost or disbursements) where a distribution to a benefiter (project and/or function) is not possible at the time of the recording of a transaction, but would be possible on the basis of later information.
- b. Initial financing of carrier account activity can be provided by any valid appropriation except Construction of Facilities.

9280-93 FUNDING RESPONSIBILITIES

- a. Centers will, as part of the budgeting process, provide the Associate Administrators with sufficient justification to support the funding level required to operate carrier accounts. In evaluating the requirements for carrier account activity, the planned commitment, obligation and cost rates, as well as the expected net change due to interappropriation transfers, will be considered. The Associate Administrators are responsible for monitoring the use of the carrier accounts at the field Centers.

NASA Financial Management Manual

- b. The responsibilities and limitations placed on NASA officials under Resources Authority Warrants (NASA Form 506) and Allotment Authorizations (NASA Form 504) by applicable laws, rules, or regulations are not altered. NOTE: Allotment authorization and resources authority will not be issued for carrier account unique project numbers. The allotment authorization of the financing appropriation is the source of funding for the carrier accounts.
- c. The Center Financial Management Office will show a program year on fund citations provided to the procuring office for items and services being purchased under a carrier account. Two-year appropriations can be used with program year 1989 and subsequent years. In the expiration year of a multi-year appropriation, special attention must be given to open commitment documents to assure that the obligations are recorded before the appropriation expires.

9280-94 IDENTIFICATION OF CARRIER ACCOUNT UNIQUE PROJECT NUMBERS

The following non-programmatic unique project numbers are established in the Agencywide Coding Structure (FMM 9100) as active carrier accounts.

<u>Carrier Account Titles</u>	<u>Unique Project Numbers</u>
GENERAL PURPOSE CARRIER ACCOUNTS	
Capital Equipment Carrier Account(for common-use equipment purchases)	993
Propellant Carrier Account	994
Operating Materials and Supplies Carrier Account (for common-use supplies and materials)	998
FUNCTIONAL CARRIER ACCOUNT	992
(see FMM 9280-97)	
COMMON-USE CARRIER ACCOUNT	997
(see FMM 9280-98)	

NASA Financial Management Manual

9280-95 GENERAL REQUIREMENTS AND PROCEDURES

- a. Carrier accounts transactions are designed to distinguish between purchases and distributions. Distributions should be recorded with a Y in the Carrier Account type field, and purchases should have a blank.
- b. The techniques for distribution of activity from the carrier accounts must be fully documented by each Deputy Chief Financial Officer (Finance) and approved by the Director, Financial Management Division, NASA Headquarters. Once approved, changes in distribution techniques or the carrier account used may not be made without prior approval.
- c. Appendixes illustrating the flow of transactions through the carrier account process is provided in FMM Appendix 9280-95A thru 95C.

9280-96 GENERAL PURPOSE CARRIER ACCOUNTS

- a. **DESCRIPTION.** The general-purpose carrier accounts are used to procure capital equipment, propellants, and Operating Materials and Supplies that cannot be identified to a benefiter at the time of procurement. The activity will be recorded against the appropriate unique project numbers 993, 994, or 998 as commitments, obligations and disbursements. Commitments, obligations, costs and disbursements will be charged to the benefiter in the same month the issues are made to the user.
- b. **FUNCTIONALIZATION.** Purchases in and distributions from (Y coded) general purpose carrier accounts purchases are not functionalized, but the benefiting project records must be functionalized in accordance with FMM 9121-52.
- c. **DISTRIBUTION.** The general purpose carrier accounts are distributed based on usage/issues of requested items.
- d. **OTHER CARRIERS.** Transfers (non-Y coded) can be made to the Functional Carrier Account (992).
- e. **AWCS LEVEL ON BENEFITER RECORDS.** The benefiting project charges should have the lowest level as shown in the Agencywide Coding Structure.

9280-97 FUNCTIONAL CARRIER ACCOUNT

- a. **DESCRIPTION.** The Functional Carrier Account is used to procure program support and center support activity that cannot be identified to a benefiter at the time of procurement, but can be identified to a function other than 40-00-00. The activity will be recorded against the unique project number 992 as commitments, obligations, costs and disbursements.
- b. **FUNCTIONALIZATION.** Purchases in and distributions from (Y coded) the Functional Carrier Account are functionalized in accordance with FMM 9121-52. Functional reporting of distributions to benefiting projects is required.

NASA Financial Management Manual

- c. **DISTRIBUTION.** The Functional Carrier Account distributions can be made at either the commitment, obligation or cost stage of the accounting process. To the extent practical, costs should be totally distributed to benefiting projects at the end of each fiscal year. However, when standard rates are utilized, balances may remain in the carrier account. These balances should be analyzed and appropriate adjustments should be made in the subsequent fiscal year. The distributions are limited to the commitments, obligations, or costs recorded in the carrier accounts and based on an actual usage/benefit link or labor hours.

The actual usage/benefit link can use historical trends and use, square footage, facility usage, CPU's (central processing units), rental charges and other indices developed to recover the costs associated with program support activities. The actual usage/benefit link can also utilize standard, actual or composite rates, as applicable.

Labor hour (i.e., civil servant and/or contractor) distributions may also be utilized, but only after the actual usage/benefit link method has been evaluated as impracticable. Labor hour distributions can utilize either actual recorded labor hour or budgeted/historical labor hour. If budgeted/historical labor hour data is utilized, then a comparison of the actual recorded labor hour to the budgeted/historical must be done each fiscal year as of June 30, with adjustments being made, if actuals vary by +/-5%. The adjustments should be made in the current fiscal year or as part of the budget process for the subsequent fiscal year.

- d. **OTHER CARRIERS.** Transfers cannot be made to other carrier accounts or between Functional Carrier Account activities.
- e. **AWCS LEVEL ON BENEFITER RECORDS.** The benefiting project records should have the lowest level as shown in the Agencywide Coding Structure and a transaction type of 'P' (program support) or 'C' (center support). The total Ps and Cs should equal the total Ys (Carrier Account Credit).

9280-98 COMMON-USE CARRIER ACCOUNT

- a. **DESCRIPTION.** The Common-Use Carrier Account is used to procure common-use; and program support and center support activity that cannot be identified to a benefiter and a function at the time of procurement. The activity will be recorded against the unique project number 997 as commitments, obligations, costs and disbursements.
- b. **FUNCTIONALIZATION.** Purchases in and distributions from (Y coded) this carrier account are not functionalized, but the benefiting project records are functionalized in accordance with FMM 9121-52.
- c. **DISTRIBUTION.** The Common-Use Carrier Account is distributed based on the same distribution guidelines stated in FMM 9280-97C.
- d. **OTHER CARRIERS.** Transfers (non-Y coded) can be made to the Functional Carrier Account.
- e. **AWCS LEVEL ON BENEFITER RECORDS.** The benefiting project records should have the lowest level as shown in the Agencywide Coding Structure.

NASA Financial Management Manual

9280-99 FISCAL YEAREND PROCEDURES

- a. To provide for accurate budget submissions and yearend status reporting, the distribution of all charges to benefiteurs for issues made and services received during a fiscal year should be made before closing the accounts at the end of each fiscal year.
- b. Special attention must be given to outstanding carrier account commitments to assure utilization before the expiration date of the appropriation which funds the carrier accounts.
- c. Yearend reporting requirements for Schedules of Estimated Distribution of Selected Accounts (SEDSA) is contained in FMM 9391-8.

NASA Financial Management Manual

PART III AUTHORIZATION AND APPROPRIATION ACT PROVISIONS AND OPERATING PLAN PROCEDURES

9280-101 PURPOSE

This part of the chapter prescribes the requirements concerning the accounting, controlling, and reporting of transactions incident to the provisions contained in the annual NASA Authorization and Appropriation Acts and the procedures initiated in fiscal year 1981 for the Operating Plan.

9280-102 APPLICABILITY

This portion of the chapter is applicable to NASA Headquarters only.

9280-103 REQUIREMENTS

Each provision contained in the annual NASA Authorization and Appropriation Acts as well as in the formal Operating Plan, which is amenable to financial accounting, shall be accounted for in a manner that permits responsible NASA officials to establish and determine that financial transactions are within the amounts and for the purposes legally authorized and administratively approved.

9280-104 RECORDS

Records will be established and maintained to account properly for each administrative action affecting the provisions of the NASA Authorization and Appropriation Acts and the Operating Plan. The records of the administrative actions shall be maintained in a manner to disclose properly at all times the status of administrative operating authorities issued to date which are chargeable to amounts contained in a provision of the annual Acts and the Operating Plan. These records as a minimum shall identify: (1) actions taken which affect amounts which normally fall within Section 201 of the annual Authorization Act such as formal notification to the Congress of proposed changes in NASA program plans; (2) actions taken which affect appropriation availability (such as apportionment actions, including appropriation transfers); (3) actions taken to issue administrative authority to utilize available funds in specified amounts for the execution of specified approved projects and activities (Resources Authority and Subauthorizations); (4) releases of appropriation and apportionment availability to Centers (allotment actions); and (5) any amounts held in reserve by NASA Headquarters and any other data necessary to identify completely the status of amounts in the annual Acts and the Operating Plan.

NASA Financial Management Manual

9280-105 REPORTS

- a. The monthly Status of Approved Programs (SAP) Reports will be prepared in the formats set forth in FMM Appendices 9280-105A (R&D), B (SFCDC), C (CoF), D (R&PM) and E (OIG). Data contained in these reports will be based upon the NASA Authorization and Appropriation Acts, the Annual Operating Plan, Resources Authorities/Subauthorizations (NASA Forms 506, 506R, 506A, and 506A-R), and other appropriation program documents and memoranda.
- b. The monthly Status of Appropriation/Apportionment/Allotment Reports will be prepared in the formats set forth in FMM Appendices 9280-105F (R&D), G (SFCDC), H (CoF), I (R&PM), and J (OIG). The Research and Development (FMM 9280-105F); the Space Flight, Control and Data Communications (FMM 9280-105G); Research and Program Management (FMM 9280-105I); and the Office of Inspector General (FMM 9280-105J) reports will be consolidated with the monthly SAP Reports. Data contained in these reports will be taken from the Appropriation Act, Apportionments (Standard Form 132), Allotment Authorizations (NASA Form 504), Attachments to Allotment Authorizations (NASA Form 504A and 504B), and other appropriate financial documents.
- c. The 506A and 506A-R amounts contained in the SAP reports as of March 31 will be compared to the amounts contained in the applicable General Ledger accounts. The Centers will be notified to correct any differences.

9280-106 RESPONSIBILITY

- a. The Budget Controls Office (Code BR) will be responsible for implementing the provision of FMM 9280-104 and FMM 9280-105a and b.
- b. The Financial Management Division (Code BF) will be responsible for implementing the provisions of FMM 9280-105c.

PART IV ACCOUNTING FOR COOPERATIVE AGREEMENTS, FUNDED BY TRUST FUND DEPOSITS, BETWEEN NASA AND FOREIGN AGENCIES OR INTERNATIONAL ORGANIZATIONS

9280-121 PURPOSE

This portion of the chapter (FMM 9280-121 - FMM 9280-128) establishes the requirements for accounting and reporting on transactions under cooperative agreements between NASA and foreign entities for procurement or furnishing by NASA of materials and services which are funded by deposits to trust fund accounts. Trust fund deposits are fiscal resources held by the Federal Government for the benefit of specific individuals or classes of individuals as distinguished from the general public. In administering these resources, the Government acts as a trustee and is limited in this capacity to the actions authorized by the specific trust agreement.

9280-122 APPLICABILITY

This portion of the chapter is applicable to NASA Headquarters and field Centers to which trust funds are made available by resources authority warrants and allotment authorizations.

9280-123 AUTHORITY

- a. The act of June 26, 1934, 58 Stat. 1233, as amended (31 U.S.C. 725s).
- b. The act of July 29, 1958, 72 Stat. 432 (42 U.S.C. 2475).
- c. Treasury Department - GAO Joint Regulation No. 3, as amended.
- d. Treasury Department Announcement No. 7533, NASA No. 80-10, dated May 17, 1963.

9280-124 ESTABLISHMENT OF AGREEMENTS FUNDED BY TRUST FUND DEPOSITS

- a. In the course of carrying out international cooperative projects, it may be in the interest of NASA to agree to expend funds of a cooperating foreign agency for the procurement of supplies, materials or services.
- b. Supplementary agreements or exchanges of correspondence providing for trust fund deposits will be made by the Headquarters Program and staff office(s) involved pursuant to the provisions of established cooperative project agreements in coordination with the Office of International Affairs and the Financial Management Division.
- c. Such agreements or exchanges of correspondence will include the following specific provisions in addition to any other necessary arrangements relative to the services and materials to be provided:

NASA Financial Management Manual

- (1) Description of the items or services requested by the cooperative foreign entity that are to be provided by or through NASA.
- (2) Estimate of the cost of the items or services for the time period covered by the agreement.
- (3) Provision for an advance payment (time phased, if appropriate) to cover the cost of the items or services to be furnished, by a check in the amount of the estimated cost in U.S. dollars made payable to the National Aeronautics and Space Administration, and forwarded to the Financial Management Division, Code BF, NASA Headquarters, Washington, DC 20546.
- (4) Statement that in the event the estimated cost is insufficient to cover the final cost of the items requested, the cooperating foreign entity agrees to repay NASA for such additional costs as may be incurred.
- (5) Statement that any funds remaining will be returned to the cooperating foreign entity upon termination of the contracted operations or upon termination of the agreement after final disbursements have been made to cover outstanding obligations.

9280-125 RECEIPT, ALLOTMENT AND OBLIGATION OF FUNDS

- a. **INTRODUCTION.** The Treasury Department has established the following accounts to control trust funds received by NASA under cooperative agreements with foreign entities.

Trust Fund Receipt Account:

808979 International Cooperation, National Aeronautics and Space Administration

Trust Fund Appropriation Account:

80X8979 International Cooperation, National Aeronautics and Space Administration

For NASA Headquarters Use Only

- b. **CODING.** The required codes to be incorporated in the Agencywide Coding Structure shall be assigned in accordance with FMM 9160 by the Financial Management Division. This action shall be accomplished at the time the agreement with the cooperating foreign entity is signed by NASA.
- c. **RECEIPT.** Upon receipt of an advance for deposit to the trust fund account, the Financial Management Division will transmit the funds to the U.S. Treasury disbursing office for deposit to the trust fund appropriation account, 80X8979. The Financial Management Division will furnish the cognizant Program Office and the Budget Operations Division the data normally required by FMM 9230 including the source from which the funds were received; the amount received and whether it is an initial or supplemental advance; certificate of deposit number and date; purpose or use which will be made of the funds; and a citation of the applicable trust agreement, e.g., 80X8979.00X.

NASA Financial Management Manual

- d. **ALLOTMENT.** Based on the above information, the Program Office and the Budget Operations Division will issue and distribute appropriate resources authority warrants and allotment authorizations. These documents will indicate the trust fund account symbol and the identifying limitation applicable to the particular agreement, i.e., 80X8979.00X, the date of the trust agreement, and the purpose for which the funds are available. As with appropriated funds, obligation documents are not to be executed until the allottee is in receipt of a resources authority warrant (506A) and an allotment authorization (504) for the trust fund appropriation account, 80X8979.
- e. **COMMITMENTS AND OBLIGATIONS.** Commitments and obligations under the trust fund appropriation account 80X8979 shall be established and documented in accordance with criteria contained in FMM 9030 and FMM 9040. Commitment and obligations shall be for the purpose(s) set forth in the trust agreement and shall not exceed the amount of funds allotted therefore. Depending on the type of transaction, documentation will consist of purchase orders, contracts, or such other documentation normally used by the allottee to initiate the actions required. Complete files of paid vouchers and unliquidated trust fund obligation documents will be maintained to support entries to the Center's accounts.

Field Centers shall cite the trust fund appropriation account 80X8979,00X on all obligation documents and disbursement documents properly chargeable under the trust fund agreement. It is recognized that instances will occur, e.g., stock issues under existing NASA contracts, where it is necessary to cite one of the regular NASA appropriations and reimburse that appropriation by billing the trust fund appropriation account 80X8979.00X. Standard Form 1081 will be utilized for this purpose.

9280-126 ACCOUNTING AND REPORTING

- a. The financial management or fiscal officer at each Center is responsible for the maintenance of the detailed accounting records and supporting documents under the trust agreement.
- b. Accounting requirements for trust funds under 80X8979 will follow the same pattern as the accounting requirements under the regular NASA appropriations to the extent applicable. (See FMM 9220 for requirements relative to maintenance of the general ledger.) In addition to these requirements, periodic statements and status reports as required by the trust agreement will be furnished to the cooperating foreign entity through the cognizant Headquarters Program Office(s).
- c. Monthly reports to NASA Headquarters from NASA field Centers will involve the following financial reporting systems:
 - (1) Summary General Ledger transactions will be reported in accordance with FMM 9220.
 - (2) Mechanized reports on the financial status of each trust fund agreement will be furnished in accordance with the requirements set forth in FMM 9330. See FMM 9160 for guidance relative to coding.

NASA Financial Management Manual

9280-127 PRICING

- a. The Centers' normal method for accumulating direct costs, i.e., work order, job order, etc., will be utilized in accounting for the activities under the trust agreement(s).
- b. Overhead, administrative expenses, and other normal NASA support will be charged as authorized in the trust agreement(s). Amounts of these charges which cannot be identified to a specific appropriation will be deposited to the Treasury as miscellaneous receipts.

9280-128 REVIEW OF ACTIVITY

- a. The Center financial management or fiscal officer will review the current status of the trust fund quarterly to determine whether the purpose for which the funds were made available has been accomplished, and that costs incurred are in accordance with the provisions of the trust agreement(s).
- b. Particular attention shall be directed to assure that funds will be provided on a timely basis to cover the liabilities to be incurred by NASA in carrying out the provisions of trust agreement(s). If it is anticipated that funds will be depleted prior to completion of the project, it is important that prompt action be taken to obtain additional funds. This is essential in the event a supplemental advance has to be obtained from the cooperating foreign entity.
- c. Final settlement will be accomplished by the Headquarters Financial Management Division upon notification by the responsible Headquarters Program or staff office that termination proceedings and final payment requirements have been satisfied. Any unused balance will be withdrawn from the Center(s) and refunded to the cooperating foreign entity from which it was received in accordance with the provisions set forth in the applicable trust agreement.
- d. Standard Form 1047, Public Voucher for Refunds, or other appropriate voucher form, will be utilized to document the return of unused funds to the cooperating foreign entity. The voucher form will contain the following information:
 - (1) Name of depositor
 - (2) Amount of deposit and date received
 - (3) Amount applied (expenditure)
 - (4) Balance refunded
 - (5) Any other pertinent data, e.g., a citation to the applicable trust agreement and procurement documents will be shown.
